## Secretary Minutes Aug. 2005

The meeting was called to order at 19:39 by Floyd Miller, president.

The minutes were accepted, as shown in the newsletter modified by the editor.

The treasurer's report was accepted, with two renewals since the publishing.

Roy Ballogg also reported two renewals, and new member Jim Mack.

Lester Miller said that the intended program fell through because of the presenter's technical difficulties; may be in the coming meeting late in August. He suggested the web-page designer who also imitates Lincoln, and someone from the Toledo-hospital X-ray department.

There was notice in the newsletter from Donna Bardis that the investment group meets on Aug 6, Sat, 2pm-4pm.

The Internet SIG meets on the 3d Monday night at Belltech.

There was no old bizness.

Roy Ballogg showed a video clip wherein the editor explained her desires to have all newsletter-copy by the 15th.

**Sandor Halasz, Secretary**

## The Nether World -

*(Gleaned from the denizens of the Internet)*

Costello: What would I need to type a letter with my new computer?

Abbott: Well, you'd need Office with Windows.

C: I already have an office with windows, O.K? Let's just say I'm sitting at my computer and I want to type a letter, what do I need?

A: Word.

C: What word?

A: Word in Office

C: The only word in office is office.

A: The Word in Office for Windows

C: Which word in office for windows?

A: The Word you get when you click the blue "W".

C: I'm going to click your blue "w" if you don't start giving me some straight answers. O.K. forget that. Can I watch movies on the Internet?

A: Yes. You want Real One.

C: Maybe a real one, maybe a cartoon What I watch is none of your business. Just tell me what I need!

A: Real One.

C: If it's a long movie, I also want to watch reels 2, 3 and 4. Can I watch them?

A: Of course.

C: Great! With what?

A: Real One.

C: O.K! I'm at my computer and I want to watch a movie. What do I do?

A: You click the blue "1".

C: I click the blue one what?

A: The blue "1".

C: Is that different from the blue "W"?

A: The blue "1" is Real One and the blue "W" is Word.

C: What word?

A: The Word in Office for Windows.

C: But there are three words in "office for windows"!

A: No, just one. But it's the most popular Word in the world.

C: It is?

A: Yes. But to be fair, there aren't many other Words left. It pretty much wiped out all the other Words out there.

C: And that word is real one?

A: Real One has nothing to do with Word. Real One isn't even part of Office.

C: STOP! Don't start that again. Tell me what I would need to keep track of my money?

A: Money

C: That's right. What do you have?

A: Money.

C: I need money to track my money?

A: It comes bundled with your computer.

C: What comes bundled with my computer?

A: Money.

C: Money comes with my computer?

A: Yes. No extra charge.

C: I get a bundle of money with my computer? How much?

A: One copy.

C: Isn't it illegal to copy money?

A: Microsoft gave us a license to copy Money.

C: They can give you a license to copy money?

A: Why not? THEY OWN IT!
